To all involved in instructing and supporting Darwin youth in performing arts,

Rapid Creek Markets has opened a second market on a Friday night, operating 3pm til 9pm, currently offering free rides for the kids and family fun atmosphere, the Market is to operate 12 months of the year, the management and stall holders being that it is a very young market and flexibility in structure is available, would like to offer an open invitation to Darwin's Youth, to utilize our facilities on a weekly basis.

We have Executive support for this endeavor, all that is left is for the youth in our community to show that they are willing. The invitation is open for expressions of interest, once enough support has been gleaned we can write up our line up (times most appropriate according to ages and performance type), we would like to commence before the finish of the school year. The weekly line up will be available for download on our website www.rapidcreekbusinessvillage.com and the invitation is open for performers to advertise their performance time and item on the Rapid Creek Business Village online community notice board.

We wish to set up a stage at the front of the complex undercover on Friday nights, to be utilized by Darwin's under 25 year old artists between the hours of 4pm and 8:30pm to strut their stuff, the 'stage' can be utilized to practice eisteddfod performances, stage dress rehearsals, for our young musicians to practice their skills without tiring a parents patience, to assist in building up our youths confidence and to advertise their talents.

All age's are welcome, from Preschool to University levels!

We are also willing to have competitions for the students, with prizes to support participating schools.

All interested, either in performing, volunteers to assist with equipment or organization are very welcome, enquiries can be emailed to market@rapidcreekbusinessvillage.com or Fax on (08) 89312364

Please feel free to distribute this notice to all you feel would benefit from this event!

Yours Sincerely
